The education of the youth has not been overlooked and a public school for the benefit of the children of the residents of the plat and its surroundings is in successful operation. In addition to this, the preceptress, Mrs. Whipple, is also conducting a n private boarding school known as the Garden City academy. A number of young ladies from the city are availing themselves of the opportunities effered and the school is becoming so crowded that an addition to the two story brick structure now in use has become a necessity and will soon be added. A number of pipuls are well advanced and the study of the languages has been added to the curriculum. A plane has just been purchased and the study of music will also be an important adjunct to the school.

TRANSPORTATION.

The two great problems which were to be solved to make Garden city a model residence suburb, where men of moderate means will be enabled, through building scrieties and otherwise, to own their homes in a locality where the suroundings will be pleasant, were plenty of wholesome water and cheap and rapid transportation. The first problem has been satisfactorily settled even to the most skeptical, as a mere visit to the place will show, and Mr. Shearman, well known in Sait Lake, is now in New York making arrangements for the construction of a rapid transit line, which will be put in operation as soon as possible. In the meantime a 5-cent 'bus line has been established for the convenience of the residents of that section. The 'bus leaves the city every day at 11's m and 5 p m, and returning leaves Garden City at 8 a m, and 3 p, m. Special train service over the Utah & Nevatia has also been provided, the round trip being only 15 cents. Trains run as follows: Leave Sait Lake at 6:10, 8:10 and 10 a, m and 6:15 p, m. Oh, brothers, let us east noide. The carrs that round us throng, and cover with the entrain wide. The stage of grief and wrong. Let us engy the present hour. Let mouraful thoughts be still, and cheerfully wait until the shot Has passed beyond the hill.

NO MORMON NEED APPLY.

A Campuign Bailed. Tune: "No Irish Need Apply."

I'm an houset Mormon boy.

I've been seaking for my rights;
Though foreigners, a fair would stand.
On freedom's topmost heights.
I sought to be a citizen:
What think you the reply!
I learned to my astendamment,
"No Mormon need apply."
Alas: and has it come to this,
Beneath Columbia's sky,
To taste the sweets of liberty,
No Mormon need apply?

I thought to take my papers out.
Like ony loved man:
Till asked of me a "Liberal" soul—
A free (!) American:
"Which party, then, will have your vote"—
The Feople's, sure," said !!
I fear you are immoral sir—
You need not here apply."
And so I am an allon still,
And this the reason why:
I am a People's man, and none
But Liberals need apply.

Do these paragons of purity (1)

By shander and dispraise.
Imagine they can hide their hence
How moral are their samily souls.
Let actions fessify.
The the crite they naturalize—
No Mormon need apply.
And so it was they barred me out;
I know the reason why—
I would not be a Liberal serf—
A Mormon free am I.

And yet they boast of 'diberty.'
They would on us bestow.
The liberty tes in, is all.
The diberty they know.
Their passions are their masters: when
These furies flerce they fly.
To lead them in the residess race
No Mermon need apply
And then they crings beneath a lash
That none save despots ply.
The Tiblens is their tyrant Carr—
Serfs! dare ye this deny?

How desperate their chances.

So with pages "made to order,"
And appearates—made to dree,"

GIDWON. HE HAD REASON TO BE SATISFIED. Mr. O. D. Fray, general western mana-ger of the mammoth Walter A. He carried in his peckets drafts fer a good many thousand dollars, representing the results of the last few months sale of his impleasent wares to the Co-op Wagon & Machine company, besides having in his possession letters and contracts for a big supply of machinery which is to reach this field in time for next season.

senson.

Mr. Frary said before leaving, the Maiter A. Wood company is now at the height of its presperity, and I can truthfully say that each season is on the average one point ahead of the season previous. If this does not mean that the poblic is satisfied with the line of goods we turn out, then I do not know what it could signify. You may say also that the Wood company people believe in the gospel of advertising; and we are well pleased with the results that have flowed from our advertisements in The Hermin."
